Macquarie University Library
Databases by Subject:
FOR FACULTY OF BUSINESS & ECONOMICS AND MGSM

2015
http://www.mq.edu.au/on_campus/library/
Bloomberg
It provides international financial, economic, stock market and company data. It includes coverage of equities, stock market and bond indices, economic statistics, foreign exchange rates, interest rates, fixed income instruments and derivatives. Current global business and financial news are also included. Access is only available in the Library. Please consult Library staff at the Information Desk on Level 2 for bookings. Tel: 98507518 or 1800 300 753

BoardRoom
BoardRoom is a searchable database of directors and senior executives of Australian Stock Exchange listed companies. It also provides ASX company information which includes: company address; telephone, facsimile, and web site address; industry; business description; sales; number of employees; auditors; legal advisors; bankers. A remuneration breakdown for directors and senior executives (as disclosed in company annual reports) is also provided. Other details relating to company directors include: committee responsibilities; age; cross-directorship responsibilities; gender; movements. Information is sourced from company annual reports, ASX company announcements, and directly from the companies. The information can be used to construct lists of companies or people (directors or executives) based on a range of parameters. Lists can be downloaded in spreadsheet format.

Business Source Premier
It includes major company profiles worldwide.

Company 360
Succeeding Business who's who of Australia, Company 360 provides business information and analysis on Australia's leading 50,000 private and public companies. It includes 6,500 company profiles of the largest companies, board & executive biographies, company overviews, and latest news insight from leading Australian business journalists.

DatAnalysis Premium
Financial Analysis provides a 12-year history of detailed financial information for all companies listed on ASX (Australian Securities Exchange). Key contents are: market data (beta, market capitalisation, P/E ratio), price charts, Profit & Loss, balance sheet, cash flow data, 5 year share price history, sector analysis, company profiles, ASX listed/de-listed companies and all ASX- lodged announcements, company prospectuses and annual reports from 1995 onwards.

DataStream advance v.5.1
It provides international financial, economic, stock market and company data. It includes coverage of equities, stock market and bond indices, economic statistics, foreign exchange rates, interest rates, fixed income instruments and derivatives. Key data types include beta, price earnings ratios, share prices, debt to equity, market capitalisation and dividend yield. Access is only available in the Library. Please consult Library staff at the Information Desk on Level 2 for bookings. Tel: 9850 7518 or 1800 300 753
**Factiva**
Factiva provides full-text access to news items from almost 8000 international sources and 9000 key Web sites, including more than 100 Australasian sources. Articles from newspapers (including the Australian Financial Review, the Sydney Morning Herald, the Age and the Australian), news wires, press releases, company announcements and journals and daily prices from Reuters and Knight Ridder are included. Information on companies and industries and stock market details is also provided. Date of coverage is variable according to the source. Key Australian magazines including BRW and Financial Review Smart Investor are available.

**Mergent Online International set (excluding USA)**
Mergent Online is a suite of information resources that enables in-depth business and financial research in the following areas: international company data, international company archives, international annual reports, international HSD equity pricing, unadjusted equity pricing, standardized financials, and institutional holdings. This subscription does not include the USA set of data. Users may customize viewing and output options, export company reports and financials into software applications such as Microsoft Word or Excel or Adobe Acrobat Reader, execute cross-border searches using a variety of financial and text variables, and compare multiple companies’ reports.

**OneSource**
OneSource provides access to in-depth business information on the industries, companies (both public and private), executives and corporate family structures operating in the global market. This database delivers accurate and up-to-date information on thousands of companies in Asia and the Pacific Rim, including Australia, China, Hong Kong, India, Indonesia, Japan, Malaysia, New Zealand, Pakistan, Philippines, Singapore, South Korea, Taiwan, Thailand and Vietnam, as well as on leading global companies. OneSource allows users to: search companies, executives, industries, news and reports using multiple variables, including industry code, description, and location; screen and download financials on public companies; track key developments in fields of interest; access biographical data on key executives; access director and shareholder reports; and obtain up-to-date industry news and reports.
