# Accessing databases from outside Macquarie University campus

Most Library databases and e-resources are available off-campus for Macquarie University students. There are two main points of access to Databases.

1. Via MultiSearch which is available on the Library homepage at:  
<http://www.mq.edu.au/about/campus-services-and-facilities/library>
2. Through the Subject and Research guides at:  
<http://libguides.mq.edu.au/home>

You must use your **OneID** login and password to access the Library databases (your OneID password is the same as your email password).

## Recommended databases

The following is a list of databases that are available to FBE and MGSM students both on and off campus. These databases may assist students to locate data, company and industry reports and full-text information from scholarly journals for their research.

## Company and industry information

### [Australian Bureau of Statistics \(ABS\)](#)

**Description:** The ABS is Australia's national statistical agency, providing trusted official statistics on a wide range of economic, social, population and environmental matters of importance to Australia.

**Content includes:** Current and historical social & economic data for Australia, Census figures and access to all ABS publications from 1998 onwards.

### [Bloomberg Professional](#)

**Description:** Bloomberg Professional is an international financial data stream delivered in real time.

**Content includes:** All aspects of financial market data, such as economics, stock markets and companies, providing current information on equities, bond indices, economic statistics, foreign exchange rates, interest rates, fixed income instruments, derivatives, portfolio and risk management. Along with data, it also provides access to news and analysis.

**Access restrictions:** Access is only available in the Library to Postgrad students and staff. Please ask at Information Desk, Level 2 or phone 98507500 or 1800 300 753 for further information and bookings.

### [BMI Research](#)

**Description:** Produced by Business Monitor International, this database provides access to daily macroeconomic, financial and company news and analysis on emerging and key global markets.

**Content includes:** BMI reports (country updates and forecasts and industry surveys), data and forecasts (select and export, risk rating, market consensus); alerts and analysis (fixed income, equities, currencies, politics, economics, company and industry).

### [BoardRoom](#) via Connect 4

**Description:** Boardroom is a database of directors and senior executives working for Australian Stock Exchange (ASX) listed companies.

**Content includes:** Provides ASX company information including company address, telephone, facsimile, web site address; industry, business description, sales, number of employees; auditors, legal advisors and bankers. A remuneration breakdown for directors and senior executives (as disclosed in company annual reports) is also provided; along with details relating to company directors, such as committee responsibilities, age and gender. Information is sourced from company annual reports and ASX company announcements.

**Database features:** The information can be used to construct lists of companies or people (directors or executives) based on a range of parameters. Lists can be downloaded in spreadsheet format.

[Business Source Premier](#) via EBSCOhost

**Description:** Business Source Premier features full-text and cited references for top journals covering a variety of business disciplines. This database is designed specifically for business schools and libraries.

**Content includes:** The database contains nearly 1,200 active full-text journals and magazines and 700 active full-text peer-reviewed journals. In addition, the database includes market research reports, industry reports, country reports, company profiles and SWOT analyses. Business Source Premier also includes country economic reports from leading entities and detailed company profiles for the 5000 largest companies worldwide. It also provides access to key management and marketing journals, such as Harvard Business Review, Journal of Finance and Journal of Marketing.

#### [DatAnalysis Premium](#)

**Description:** DatAnalysis Premium is a premier research tool, providing comprehensive data on all companies listed on ASX, as well as those delisted since 1989.

**Content includes:** The database is updated daily from announcements lodged at the ASX and includes corporate details, full dividend history, operational history, company announcements; financial and annual reports in PDF from 1988. It includes reports, announcements, company histories, shareholdings, company profiles, takeovers and financial data.

**Database features:** There are many different search and reporting tools available. Users can export company lists or financial data to excel.

#### [Datastream Advance](#)

**Description:** Datastream Advance provides international financial, economic, stock market and company data.

**Content includes:** Coverage of equities, stock market and bond indices, economic statistics, foreign exchange rates, interest rates, fixed income instruments and derivatives.

**Database features:** DS Windows software allows data to be downloaded and exported and can be used to create graphics, reports and spreadsheets.

**Access restrictions:** Access is only available in the Library to Postgrad students and staff. Please ask at Information Desk, Level 2 or phone 98507500 or 1800 300 753 for further information and bookings.

#### [D&B Hoovers](#)

**Description:** D&B Hoovers is a sales, marketing and company research database that includes current information on thousands of companies in Asia and the Pacific and worldwide.

**Content includes:** Access to in-depth business information on industries, companies (both public and private) and executives. The database includes company profiles and where available, analysts' reports, corporate families, SWOT analyses, company financials and biographical data on key executives.

**Database features:** Users can search for companies, executives, industries, news and reports using multiple variables, including industry code, description and location. Financials for public companies can be downloaded and users can track key developments in fields of interest.

#### [Factiva](#)

**Description:** Factiva's global news database contains more than 32,000 premium sources, including licensed publications, influential websites, blogs, images and videos.

**Content includes:** Users can access over 450 continuously updating newswires and key newspapers including the New York Times, Australian Financial Review, The Australian and Sydney Morning Herald. Included are key television and radio transcripts from sources such as the BBC, ABC, Fox and CNN and key magazines including the Economist, Forbes and Newsweek. Factiva also has a 'Companies/Markets' section that provides access to information on companies, industries and stock markets worldwide.

**Coverage:** News sources from nearly every country worldwide in 28 different languages. Date of coverage varies dependent on the source. There is a 35 year archive for available sources.

## [IBISWorld](#)

**Description:** IBISWorld is Australia's largest provider of industry-based research.

**Content includes:** 'Australia Industry Reports' are 30-40 page reports on 500 industries and include key statistics and analysis on market characteristics, operating conditions, current and historical performance, major industry participants and more. 'Australia Risk Ratings Reports' covers 500 industries, measuring how much risk an industry will face. 'Australia Company Reports' analyze the 2000 largest Australian and New Zealand companies; listed & non-listed public, private, foreign owned, trusts & government businesses. The 'China Industry Reports' analyses 200 industries at the class level and each report consists of 30-40 pages of statistics and analysis.

## [IEA Databases](#) via OECD iLibrary

**Description:** The IEA databases contain the statistical information collected by the International Energy Agency of the OECD.

**Access:** The IEA databases can be found by navigating to the 'Statistics' page in the OECD iLibrary. The content can be found on the 'Databases' list.

## [MarketLine Advantage](#)

**Description:** MarketLine Advantage is an online database containing profiles of major companies and industries worldwide.

**Content includes:** Company profiles, industry profiles, market data analysis, company focussed strategy case studies, and country statistics.

## [Mergent Online – International Company Database](#)[Mergent Online & Archive](#)

**Description:** Mergent Online is a global public company research database, excluding US companies.

**Content includes:** Company profiles, delisted company information, annual reports, company financials, institutional holdings and company news.

**Database features:** Ability to create reports by customising various datasets and exporting them into Excel.

## [OECD iLibrary](#)

**Description:** The OECD iLibrary is the online library of the Organisation for Economic Cooperation and Development (OECD) featuring its books, papers and statistics. It is also the gateway to OECD's analysis and data.

**Content includes:** Country reports, tables, outlooks, annuals, journals, newsletters, book series; legal and reference materials, and statistical databases issued by OECD.

**Subject areas include:** Emerging economies, employment, enterprise, industry, trade, finance; energy, sustainable development, investment; insurance, pensions, general economics, future studies; governance, international development, national accounts, historical statistics; information technology; statistics sources and methods; taxation, territorial economy, transition economics and transport.

## [Passport](#)

**Description:** Euromonitor International's Passport is an integrated online database that provides business intelligence on industries, economies and consumers.

**Content includes:** The database contains national, regional and global market data, statistics and strategic research. It offers an annual update and insight into global business intelligence and strategic market analysis, which includes: consumer, product and marketing trends, manufacturer and brand competition; retail distribution patterns and market forecasts.

## [World Advertising Research Centre \(WARC\)](#)

**Description:** WARC is an online database providing access to advertising and marketing information published by WARC and by more than 50 other industry sources.

**Content includes:** Access to case studies, best practices, consumer research, market strategies, industry trends and news. The database also includes conference papers, abstracts (including 'Market research abstracts') and the full-text of numerous journals, including the International Journal of Market Research, Journal of Advertising Research, International Journal of Advertising; Admap, Journal of Advertising History and Market Leader.

## Economic data and commentary

### [Australian Bureau of Statistics \(ABS\)](#)

**Description:** The ABS is Australia's national statistical agency, providing trusted official statistics on a wide range of economic, social, population and environmental matters of importance to Australia.

**Content includes:** Current and historical social & economic data for Australia, Census figures and access to all ABS publications from 1998 onwards.

### [Bloomberg Professional](#)

**Description:** Bloomberg Professional is an international financial data stream delivered in real time.

**Content includes:** All aspects of financial market data, such as economics, stock markets and companies, providing current information on equities, bond indices, economic statistics, foreign exchange rates, interest rates, fixed income instruments, derivatives, portfolio and risk management. Along with data, it also provides access to news and analysis.

**Access restrictions:** Access is only available in the Library to Postgrad students and staff. Please ask at Information Desk, Level 2 or phone 98507500 or 1800 300 753 for further information and bookings.

### [BMI Research](#)

**Description:** Produced by Business Monitor International, this database provides access to daily macroeconomic, financial and company news and analysis on emerging and key global markets.

**Content includes:** BMI reports (country updates and forecasts and industry surveys), data and forecasts (select and export, risk rating, market consensus); alerts and analysis (fixed income, equities, currencies, politics, economics, company and industry).

### [Datastream Advance](#)

**Description:** Datastream Advance provides international financial, economic, stock market and company data.

**Content includes:** Coverage of equities, stock market and bond indices, economic statistics, foreign exchange rates, interest rates, fixed income instruments and derivatives.

**Database features:** DS Windows software allows data to be downloaded and exported and can be used to create graphics, reports and spreadsheets.

**Access restrictions:** Access is only available in the Library to Postgrad students and staff. Please ask at Information Desk, Level 2 or phone 98507500 or 1800 300 753 for further information and bookings.

### [Global Economic Monitor](#) via The World Bank

**Description:** Global Economic Monitor (GEM) provides daily updates of global economic developments, with coverage of high income, as well as developing countries.

**Content includes:** Data is provided for exchange rates, equity markets, interest rates, stripped bond spreads, commodity prices and emerging market bond indices. Monthly data coverage (updated daily and populated upon availability) is available for consumer prices, high-tech market indicators, industrial production and merchandise trade. Links are provided for access to relevant indicator pages, data sets (via DDP and Excel), live Factiva newsfeed, and related sites.

### [IEA Databases](#) via OECD iLibrary

**Description:** The IEA databases contain the statistical information collected by the International Energy Agency of the OECD.

**Access:** The IEA databases can be found by navigating to the 'Statistics' page in the OECD iLibrary. The content can be found on the 'Databases' list.

### [International Financial Statistics](#) via International Monetary Fund (IMF) data

**Description:** This database provides current and historical financial and economic data, covering approximately 200 International Monetary Fund member countries.

**Content includes:** Balance of payments, commodity prices, interest rates, labor statistics, money and banking, national accounts, population and real effective exchange rates.

### [OECD iLibrary](#)

**Description:** The OECD iLibrary is the online library of the Organisation for Economic Cooperation and Development (OECD) featuring its books, papers and statistics. It is also the gateway to OECD's analysis and data.

**Content includes:** Country reports, tables, outlooks, annuals, journals, newsletters, book series; legal and reference materials, and statistical databases issued by OECD.

**Subject areas include:** Emerging economies, employment, enterprise, industry, trade, finance; energy, sustainable development, investment; insurance, pensions, general economics, future studies; governance, international development, national accounts, historical statistics; information technology; statistics sources and methods; taxation, territorial economy, transition economics and transport.

### [Penn World Tables \(PWT\)](#)

**Description:** PWT 9.0 provides purchasing power parity and national income accounts converted to international prices for 182 countries for some or all of the years 1950-2014.

### [Web of Science](#)

**Description:** Web of Science is an aggregate of several citation databases, including Science Citation Index Expanded, Social Sciences Citation Index, and Arts and Humanities Citation Index. These enable access to bibliographic information in thousands of scholarly research journals and conference proceedings in all areas of research. Database records include a link to the cited references used in a journal article, which can also be accessed and viewed through links to the abstract or full-text.

**Subject areas include:** Science, social sciences and humanities.

**Coverage:** Date coverage is variable according the database, extending from 1981 for subject-based indexes, 2005 for the 2 book citation indexes and 1990 for the conference proceedings.

### [World DataBank](#)

**Description:** The World Bank has made a range of data freely available via DataBank, an analysis and visualisation tool.

**Content includes:** DataBank includes indicators about development in countries around the globe, such as World Development Indicators, Global Financial Development and Global Economic Monitor.

**Database features:** Users can generate tables, charts and maps which they can save, embed or share. Another access point for World Bank publications is: <http://datacatalog.worldbank.org/>

## Marketing resources

### [Australian Bureau of Statistics \(ABS\)](#)

**Description:** The ABS is Australia's national statistical agency, providing trusted official statistics on a wide range of economic, social, population and environmental matters of importance to Australia.

**Content includes:** Current and historical social & economic data for Australia, Census figures and access to all ABS publications from 1998 onwards.

### [Marketline Advantage](#)

**Description:** MarketLine advantage is a searchable database with multi-industry and company coverage.

**Content includes:** Company profiles, industry profiles, market data analysis, company focussed strategy case studies, and country statistics.

### [Passport](#)

**Description:** Euromonitor International's Passport is an integrated online database that provides business intelligence on industries, economies and consumers.

**Content includes:** The database contains national, regional and global market data; statistics and strategic research. It offers an annual update and insight into global business intelligence and strategic market analysis, which includes: consumer, product and marketing trends, manufacturer and brand competition; retail distribution patterns and market forecasts.

### [World Advertising Research Centre \(WARC\)](#)

**Description:** WARC is an online database providing access to advertising and marketing information published by WARC and by more than 50 other industry sources.

**Content includes:** Access to case studies, best practices, consumer research, market strategies, industry trends and news. The database also includes conference papers, abstracts (including 'Market research abstracts') and the full-text of numerous journals, including the International Journal of Market Research, Journal of Advertising Research, International Journal of Advertising; Admap, Journal of Advertising History and Market Leader.

## Electronic books

Electronic Books Service – you can access e-books from several different vendors through MultiSearch. See the [e-book guide](#) for more information about how to access them.

### [Ebook Central](#)

**Description:** ProQuest Ebook Central is a searchable collection of electronic books covering various subject areas including business, management and economics.

### [Safari Books Online](#)

**Description:** Safari is a searchable library of online books particularly in the areas of information technology, computer science, desktop applications and business.

### [Routledge Handbooks Online](#)

**Description:** Routledge Handbooks Online is a searchable database providing an overview of classic and current research and future trends in the social sciences and humanities. It provides an authoritative guide to theory and method, the key sub-disciplines, and the primary debates of today. Every title within RHO is surrounded with metadata and abstracts at a chapter level, making it fully searchable and browsable.

### [eBook Collection \(EBSCOhost\)](#)

**Description:** The eBook collection (EBSCOhost) is a searchable collection of electronic books, in multiple subject areas, available on the EBSCOhost platform.

**Subject areas include:** Business & economics, leadership, management and marketing.

### [Springer ebook Collection](#)

**Description:** The Springer ebook collection provides full text access to electronic versions for books published by Springer.

**Content includes:** Textbooks, encyclopaedias, reference works, book series as well as monographs are all included. Coverage extends from 2005.

**Subject areas include:** Behavioral science and psychology; Biomedical and life sciences; Business and management; Chemistry and materials science; Computer science; Earth and environmental science; Economics and finance; Energy; Engineering; Humanities, social sciences and law; Mathematics and statistics; Medicine; Physics and astronomy; Professional computing & web design.

### [Wiley Online Library](#)

**Description:** Wiley Online Library is a database providing full-text access to books and journals published by Wiley-Blackwell.

**Subject areas include:** Business, chemistry, computer science, earth and environmental science; education, engineering, law, life sciences, mathematics and statistics; medicine, healthcare, physics, astronomy, polymers, materials science, psychology and social sciences.

## Journal articles

[Australian Public Affairs Information Service](#) (APAIS) on Informit

**Description:** APAIS is a subject index to scholarly articles published in Australia in the field of social science.

**Subject areas include:** Business, accounting, management, banking, finance and taxation.

[Business Source Premier](#) via EBSCOhost

**Description:** Business Source Premier features full-text and cited references for top journals covering a variety of business disciplines. This database is designed specifically for business schools and libraries.

**Content includes:** The database contains nearly 1,200 active full-text journals and magazines and 700 active full-text peer-reviewed journals. In addition, the database includes market research reports, industry reports, country reports, company profiles and SWOT analyses. Business Source Premier also includes country economic reports from leading entities and detailed company profiles for the 5000 largest companies worldwide. It also provides access to key management and marketing journals, such as Harvard Business Review, Journal of Finance and Journal of Marketing.

[Current Contents Connect](#)

**Description:** Current Contents Connect is a multi-disciplinary database which provides access to the latest published research in over 100 disciplines from more than 8000 scholarly journals and 2000 books, as well as expert evaluated web sites.

**Subject areas include:** Commerce, accounting, finance, business, economics, statistics, management, education, history, language, politics, music, law, culture, cultural studies, media, philosophy, anthropology, communications, sociology, women, women's, chemistry, chiropractic, human geography, linguistics, psychology, electronics, mathematics, physics and environment.

[EconLit](#) via EBSCOhost

**Description:** EconLit provides bibliographic information to a wide-range of economic-related literature, covering both theory and application. An expanded version of the Journal of Economic Literature (JEL), it indexes and abstracts scholarly journals, books and dissertations. In addition, it includes full-text book reviews published in JEL and 40,000 working papers in economics.

[Emerald Management](#)

**Description:** Emerald Management is a searchable database, facilitating access to collection of peer-reviewed business and management journals.

**Content includes:** Covering 22 subject areas, the database provides full-text access to a range of resources, such as journal articles, books and case studies.

[Google Scholar @ MQ](#)

**Description:** Google Scholar enables users to search specifically for scholarly literature, including peer-reviewed papers, theses, books, preprints, abstracts and technical reports from all broad areas of research.

**How to access:** Google Scholar is accessible through the Library via the discovery tool, MultiSearch. Use Findit@MQ to obtain the full article from the subscribed database.

[JSTOR](#)

**Description:** JSTOR is an electronic archive providing access to the back issues of core scholarly journals in the arts, humanities and social sciences. It includes some coverage of science disciplines. Depending on the title, full-text of the earliest issues to within a few years of current publication is available. Users may browse by journal title or discipline, or may search the full-text or citations/abstracts. New and existing titles are added on an ongoing basis. The database is divided into multidisciplinary and discipline specific collections.

[Periodicals Archive Online](#) (PAO)

**Description:** PAO is a searchable online archive that provides electronic access to the back files of scholarly periodicals in 37 subject areas of the humanities and social sciences.

**Subject areas include:** 37 key subject areas including economics and business/management.

### [Sage Journals Online](#)

**Description:** Sage Journals Online is a searchable full-text database providing access to journals published by Sage. Date of coverage varies.

**Subject areas include:** Accounting history, economics, management & organisation studies, marketing & hospitality

### [Scopus](#)

**Description:** Scopus is a multidisciplinary abstract and citation database, providing coverage of over 18,000 peer-reviewed journals in the scientific, technical, medical and social science fields; and more than 5,000 international publishers.

**Content includes:** The database also indexes open access journals, conference proceedings, book series and trade publications, as well as patent records from 5 patent offices. Links to full-text articles are also available.

**Coverage:** References go back to 1996, while abstracts go back further.

### [ScienceDirect](#)

**Description:** ScienceDirect offers comprehensive, full-text access to Elsevier books, journals and reference works and includes citations and abstracts of other journals.

**Subject areas include:** Life, medical, technical, and physical sciences; however, there is also coverage of the arts, business, management, social sciences and psychology.

### [Taylor & Francis Online](#)

**Description:** Taylor & Francis Online is the content platform for journals published by Taylor & Francis and Routledge.

**Content includes:** In addition to the fulltext journals, the database also includes access to abstract and indexing databases and encyclopedias.

### [The Economist Historical Archive 1843-2013](#)

**Description:** The Economist Historical Archive contains every page of every issue of The Economist published from 1843 to 2007.

**Content includes:** The Economist Historical Archive delivers a complete searchable copy of every issue of The Economist from 1843 to 2013. Included are the supplements, special reports and surveys as well as full-colour images, multiple search indexes, exportable financial tables and a gallery of front covers highlighting a key topic of each week.

**Database features:** Charts and tables are available in an exportable format allowing users to manipulate statistical tables and financial and economic data.

### [Web of Science](#)

**Description:** Web of Science is an aggregate of several citation databases, such as Science Citation Index Expanded, Social Sciences Citation Index, and Arts and Humanities Citation Index. These enable access to bibliographic information in thousands of scholarly research journals and conference proceedings in all areas of research. Database records include a link to the cited references used in a journal article, which can also be accessed and viewed through links to the abstract or full-text.

**Subject areas include:** Science, social sciences and humanities.

**Coverage:** Date coverage is variable according the database, extending from 1981 for subject-based indexes, 2005 for the 2 book citation indexes and 1990 for the conference proceedings.

### [Wiley Online Library](#)

**Description:** Wiley Online Library is a database providing full-text access to books and journals published by Wiley-Blackwell.

**Subject areas include:** Business, chemistry, computer science, earth and environmental science; education, engineering, law, life sciences, mathematics and statistics; medicine, healthcare, physics, astronomy, polymers, materials science, psychology and social sciences.

## Other tools for accessing journals

### [BrowZine](#)

**Description:** BrowZine is a publisher-neutral reading and discovery platform that provides a uniform way of reading, storing, citing and sharing articles on your smart devices or via your desktop. The application allows you to browse many of the Library's subscribed e-journal contents.

**Application features:** With BrowZine, you can: browse journals by subject, review tables of contents, and download full articles; use the durable linking capability of browzine.com to easily link to specific "shelves" of content; add journals to your personal bookshelf and be notified when new articles are published; save articles for off-line reading or export to services such as DropBox, Mendeley, Zotero, Papers and more.

**How to access:** Download the BrowZine app from the [App Store](#) (for iPad or iPhone), [Google Play](#) (for Android devices), [Amazon apps](#) (Kindle Fire HD) or access via the [web](#). First time users will be asked to select their institution and will be required to enter their One ID. A brief '[Introduction to BrowZine](#)' video is available for new users.

## News and media

### [Australia & New Zealand Newsstream](#) via ProQuest

**Description:** This database provides access to leading Australian and New Zealand newspapers, including the Sydney Morning Herald, The Age, and The Australian, and newswires from Australia and New Zealand.

**Access:** Select 'News & newspapers' in 'Search subject areas' on the Basic Search page.

### [Factiva](#)

**Description:** Factiva's global news database contains more than 32,000 premium sources, including licensed publications, influential websites, blogs, images and videos.

**Content includes:** Users can access over 450 continuously updating newswires and key newspapers including the New York Times, Australian Financial Review, The Australian and Sydney Morning Herald. Included are key television and radio transcripts from sources such as the BBC, ABC, Fox and CNN and key magazines including the Economist, Forbes and Newsweek. Factiva also has a 'Companies/Markets' section that provides access to information on companies, industries and stock markets worldwide.

**Coverage:** News sources from nearly every country worldwide in 28 different languages. Date of coverage varies dependent on the source. There is a 35 year archive for available sources.

### Fairfax Media Publications

**Description:** Provides access to both the Fairfax Media Publications Online version and the Fairfax Media Publications Digital Edition version (digital replica of the print newspaper) of selected Fairfax publications including the [The Australian Financial Review](#), [The Sydney Morning Herald](#) and [The Age](#).

## Dictionaries, encyclopedias and handbooks

### [Berkshire Encyclopedia of Sustainability](#)

In this seminal work, experts from around the world provide authoritative coverage of the growing body of knowledge about ways to restore the planet. Focused on solutions, this interdisciplinary publication draws from the natural, physical, and social sciences to bring readers an unprecedented array of 887 articles from over 900 contributors from 53 countries on environmental law and ethics, green business practices, regional sustainability issues, and resource and ecosystem management.

### [Blackwell Reference Online](#)

BRO is a searchable online full-text library consisting of over 300 reference volumes, including the Blackwell companions and handbooks, such as the Encyclopaedia of Management and the Companion to Syntax.

### [Humanities & Social Sciences Collection](#) via Informit

**Description:** The Humanities & Social Sciences Collection on the Informit Platform provides access to content from a range of journals, monographs and books, conference proceedings, research papers and reference materials.

**Content includes:** Peer reviewed journals, monographs and books, conference proceedings, research papers and reference materials sourced and indexed by RMIT Publishing.

**Subjects include:** Agriculture, arts, Asian studies, business, cultural studies, education, history, indigenous studies, law, media, political science, reference, social sciences, science and technology.

### [Macquarie Dictionary](#)

The sixth edition of the Macquarie Dictionary is a complete record of English as it is used in Australia, from the colourfully colloquial to the highly technical. Searching may be confined to the Macquarie dictionary only, or combined with the thesaurus.

### [Sage Reference](#)

Sage Reference is a searchable database of reference books published by Sage, covering the social sciences, psychology and education.

### [Wiley Encyclopedia of Management](#)

**Description:** The third edition of this multi-volume Encyclopedia of Management is revised and updated to chart the major developments that have occurred in: digital technologies; ethics and governance-related issues; innovation; emerging markets; organizational networks; and new avenues of sustainable business growth.

**Database features:** Access to the online edition is via Wiley Online Library offering browsing by table of contents or articles by topic, as well as the ability to expand and follow references and view author indices.

## Research methods, research impact and metrics

### [ProQuest Dissertations & Theses: Global](#)

**Description:** ProQuest Dissertations & Theses contains citations for dissertations and theses from 1861 to the present.

**Coverage:** The database provides full-text access to most of the dissertations added since 1997, with a substantial proportion for the period 1961 to 1996, along with selected theses back to 1861. It also contains citations covering the period 1637-1860, most of which are in Latin, French and German. Paper copies of theses from 1861 onwards can be ordered from Document Supply. Contact Document Supply for the period 1637 to 1860.

### [SAGE Research Methods](#)

**Description:** SAGE Research Methods Online (SRMO) is a research tool supported by a newly devised taxonomy that links content and methods terms. It provides the most comprehensive picture available today of research methods (quantitative, qualitative and mixed methods) across the social and behavioural sciences.

**Content includes:** The database includes more than 100,000 pages of SAGE book and reference material on research methods as well as editorially selected material from SAGE journals. In addition, SRMO contains content from more than 600 books, including the complete Quantitative Applications in the Social Sciences "Little Green Books" series from SAGE.

## [Scopus](#)

**Description:** Scopus is a multidisciplinary abstract and citation database, providing coverage of over 18,000 peer-reviewed journals in the scientific, technical, medical and social science fields; and more than 5,000 international publishers.

**Content includes:** Scopus also indexes open access journals, conference proceedings, book series and trade publications, as well as patent records from 5 patent offices. Links to full-text articles are also available.

**Coverage:** References go back to 1996, while abstracts go back further.

## Useful websites

### Higher Degree Researchers

### Referencing

<http://libguides.mq.edu.au/Referencing>

### Bibliographic reference software: Endnote, Mendeley

<http://libguides.mq.edu.au/referencing-software>

### Macquarie Research Online

<http://www.researchonline.mq.edu.au/vital/access/manager/Index>

### Web resources for business, economics, finance, marketing and management

<http://libguides.mq.edu.au/home>

## MultiSearch

MultiSearch provides one-stop searching across the Library's resources including:

- Books, journals and articles,
- Unit Readings (eReserve and the print Reserve Collection),
- Macquarie University ResearchOnline,
- Numerous library databases and online journal collections

MultiSearch enables clients to search across the full range of Library resources via a single interface with a Simple Search box; retrieve results and, where results relate to electronic resources, link directly through to the full-text without having to search individual catalogues, databases or journals for relevant content.

### Keyword searching

You can search across the full range of Library resources through the Simple Search box.

1. Use the [Books, articles and more](#) tab.
2. Type your keywords into the Simple Search box and click **Search**.
3. Once you have done your initial search you can refine your results using the facets down the left hand side of the results list. These facets allow you to narrow your results according to resource type, subject area, and date etc.
4. Click on **View Online** to access electronic resources or **Hold/ARC Request** to get the call number of items held in the Library.

### Searching for a journal

1. Use [Advanced Search](#).
2. Select **in the title** and **is (exact)** from the drop-down menus. Type in the journal title in the search box.
3. Select **Journals** from the Material type drop down menu.

#### 4. Click **Search**.

The screenshot shows a search interface with several tabs: 'Books, articles & more', 'Databases', 'Unit Readings', and 'Past exam papers'. The 'Databases' tab is selected. The search criteria are: 'in the title' (selected), 'is (exact)' (selected), and 'journal of business'. The 'Material Type' is set to 'Journals'. The 'Search Scope' is set to 'Books, articles & more'. There are buttons for 'Sign in to MyLibrary for all available resources', 'Simple Search', 'Browse Search', 'Clear', and 'Search'.

### Searching for a database

You can find databases by doing a keyword search using the Simple Search box on the Databases tab. You can also find specific databases by searching for them by name.

1. Use the [Databases](#) tab.
2. Type your keyword into the Simple Search box.
3. Click **Search**.
4. Click on **View Online** link to go to the database.
5. Use the **Databases by Subject** filter on the left hand side of the page to refine your results to those recommended for a particular subject area.

The screenshot shows the search results page for the query 'human resources' management. The 'Databases' tab is selected. The search results are sorted by Relevance. The first result is 'AIM management and training database . Melbourne, Vic. : RMIT Publishing Informit Core'. The 'Databases by Subject' filter is expanded, showing 'Environment (3)', 'Human geography (2)', 'Management (2)', 'Health (1)', and 'Accounting (1)'. The 'View Online' link is highlighted.

### Alternatively

1. Click on the downward arrow on the far right hand side of the **Choose a subject area** box
2. A drop-down menu listing all subject areas will appear. Select the desired subject area and a list of relevant databases will appear.
3. Click on **View Online** link to go to the database

## Interlibrary loan service

Postgraduate students can submit a request for an item through Interlibrary Loan, if Macquarie University Library does not hold it in print or electronic format.

Interlibrary Loan requests can be made through [MultiSearch](#). This service can provide direct delivery of articles to your desktop. The system allows you to check the progress of your current requests at [MyLibrary](#). Full details can be found on the following link:

[https://mq.edu.au/on\\_campus/library/borrowing/interlibrary\\_loans/](https://mq.edu.au/on_campus/library/borrowing/interlibrary_loans/)

## Where to find further assistance

### Student IT Support

[http://www.mq.edu.au/about\\_us/offices\\_and\\_units/information\\_technology/help/](http://www.mq.edu.au/about_us/offices_and_units/information_technology/help/)

The Student IT Help provides information about information technology and remote access issues to the students and staff of Macquarie University.

### Ask a Librarian

<http://www.mq.edu.au/about/campus-services-and-facilities/library/contact-us>

This service offers access to Reference Librarians and their expertise either by email, telephone, or chat. Staff and Students can get help with information searching or with specific reference questions.
